NOUMAN NADEEM

SEO-First Web Developer | Frontend Developer | UI/UX Designer | Vibe Coder

nouman.coder@gmail.com • nouman-code.neocities.org • Lahore, Pakistan

Summary

A creative and SEO-First Web Developer who builds high-converting, lightning-fast websites that not only look stunning but also rank effectively. I specialize in frontend development, user-centric design, and using AI tools to create scalable and innovative web solutions. Fast learner, strong researcher, and passionate about solving complex problems with clean, optimized code. I enjoy working with creative teams who care about performance, clarity, and great user experiences.

Strengths

Fast Learner & Strong Researcher
Quickly grasps new tools and concepts with deep, self-driven research — adapts rapidly in technical and creative environments.

Creative Problem Solver
Solves complex tasks with clarity and purpose; builds user-focused, aesthetically strong, and technically sound solutions.

SEO-Driven Developer
Combines frontend skills with SEO expertise to build websites that rank high, load fast, and convert better.

Projects

Utility Hub
Remote

https://saas.ornabeauty.com/

Built a SaaS-style website featuring 100+ web tools using low-code development.
